

BlackRock iBLD® Endura® VC5.5 ER Index

As of September 30, 2023

IBLDE55E

Index Objective

The BlackRock iBLD® Endura® VC5.5 ER Index (the "Index") seeks to provide the potential for more consistent returns than a traditional stock index and may help reduce losses during declining markets while still experiencing gains during rising markets. The Index comprises U.S. equities with daily volatility controls to help mitigate downside risk. The daily volatility controls determine an allocation to short-term U.S. treasury bonds. Index constituents are comprised of iShares® ETFs. The Index tracks the excess return of the selected iShares® ETF constituents above the return on cash.

Index Performance Since Inception

Historical index performance is no guarantee of any future performance. Indexes are unmanaged and one cannot invest directly in an index.

Constituents are subject to change

The BlackRock iBLD® Endura® VC5.5 ER Index commenced ongoing calculation on June 14, 2016. BlackRock Index Services, LLC ("Index Services"), a subsidiary of BlackRock, Inc. designs, sponsors and publishes the BlackRock Indices for use in portfolio benchmarking, and portfolio management. The BlackRock Indices, allocations and data are subject to change.

The BlackRock Indices do not guarantee future income or protect against loss of principal. There can be no assurance that an investment strategy based on the BlackRock Indices will be successful. Indices are unmanaged, and one cannot invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through investable instruments (if any) based on that index. Index Services does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, exchange traded fund, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any Index Services' index (collectively, "Index Linked Investments"). Index Services makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. Index Services is not an investment adviser or fiduciary and makes no representation regarding the advisability of investing in any Index Linked Investments.

Index returns do not represent the results of actual trading of investable assets/securities. Index Services maintains and calculates indices but does not manage actual assets. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the Index Services' index performance.
